

Session 2
November 16, 2011

Ensuring Lessons-Learned are Applied

Chuck Casto

**Deputy Regional Administrator RII
U. S. NRC**

Path Forward on Near Term Recommendations

- **NRC Staff directed by the Commission to implement specific recommendations**
- **Staff will seek stakeholder input in determining action on each recommendation**
- **Staff will issue demands for information, orders, and new regulations**

NRC Followup

- **NRC will review and assess licensee responses**
- **NRC will establish necessary regulatory framework**
- **NRC will inspect licensees to ensure compliance with all new regulatory requirements**

3

Protecting People and the Environment

Regulation After Lessons Learned Incorporated

- **Plants licensed to operate within safety margins**
- **NRC approved process required for changes that affect the safety margins**
- **Risk determined for every change in plant configuration and reported to NRC**
- **Inspection ensures compliance**
