

Conditions for Release, Rules and Restrictions Applying to the

KALININ UNIT3 Transient caused by the switching-off of one of the four operating MCP at nominal reactor power

The data and other experimental information are released under the following conditions:

- The data and information remain the property of the VNIIAES (All-Russian Research Institute for Nuclear Power Plant) and KIAE (RRC "Kurchatov Institute").
- The data and information is exclusively released to participants in the KALININ-3 Benchmark Study.
- Recipients of the data will use it exclusively for model and code improvements for coupled neutronics and thermal-hydraulics simulations including uncertainty analyses in modelling.
- Recipients agree not to make copies of the information and not to further distribute or sell it to third parties.
- Recipients agree to provide feedback on deficiencies or errors they may find in the data.
- Recipients agree to inform the benchmark organizers before publishing any study results for which the KALININ-3 benchmark data have been used.

DISCLAIMER

Neither the Organization for Economic Co-operation and Development nor VNIIAES and KIAE, nor any person acting on behalf of any of these organisations assume any liability with respect to the use of, or for damage resulting from the use of the data and information released.

I agree to these conditions:
