Current status of EGCEA phase-II report

Yuichi Yamane
JAEA

History

2006 Phase-II was proposed

Results by AGNES, CRITEX, INCTAC, TRACE

Further calculation with the same parameter was proposed

2013 New results by FETCH and CRITEX4.3

2014 Another results by FETCH and CRITEX4.3 Result for SILENE BM by COMSOL

2015 Results by FETCH2 and CRITEXUK

2016 waiting COMSOL results for TRACY Benchmark

2017 Another results by FETCH and CRITEXUK

Issues

- Only TRACY benchmark is described.
- No description of FETCH and COMSOL.
- No COMSOL results.
- Some values calculated by using FETCH must be shown.
- No description of calculation conditions.
- No summarizing comment.
- No sample inputs.

What to do

- Could we agree to minimize it for fast publication?
  - Only TRACY benchmark is described.
  - Following description will be supplied;
    - Brief explanation of the code
    - Some nominal values as the calculation results
  - Some more description will be added to each graph and summary.

- If agreed, we finish the report by next meeting.
