

Answer

Figure 1 shows the center four grids of (a) Original view and (b) Extracted view.

There is a following inconsistency between (a) and (b).

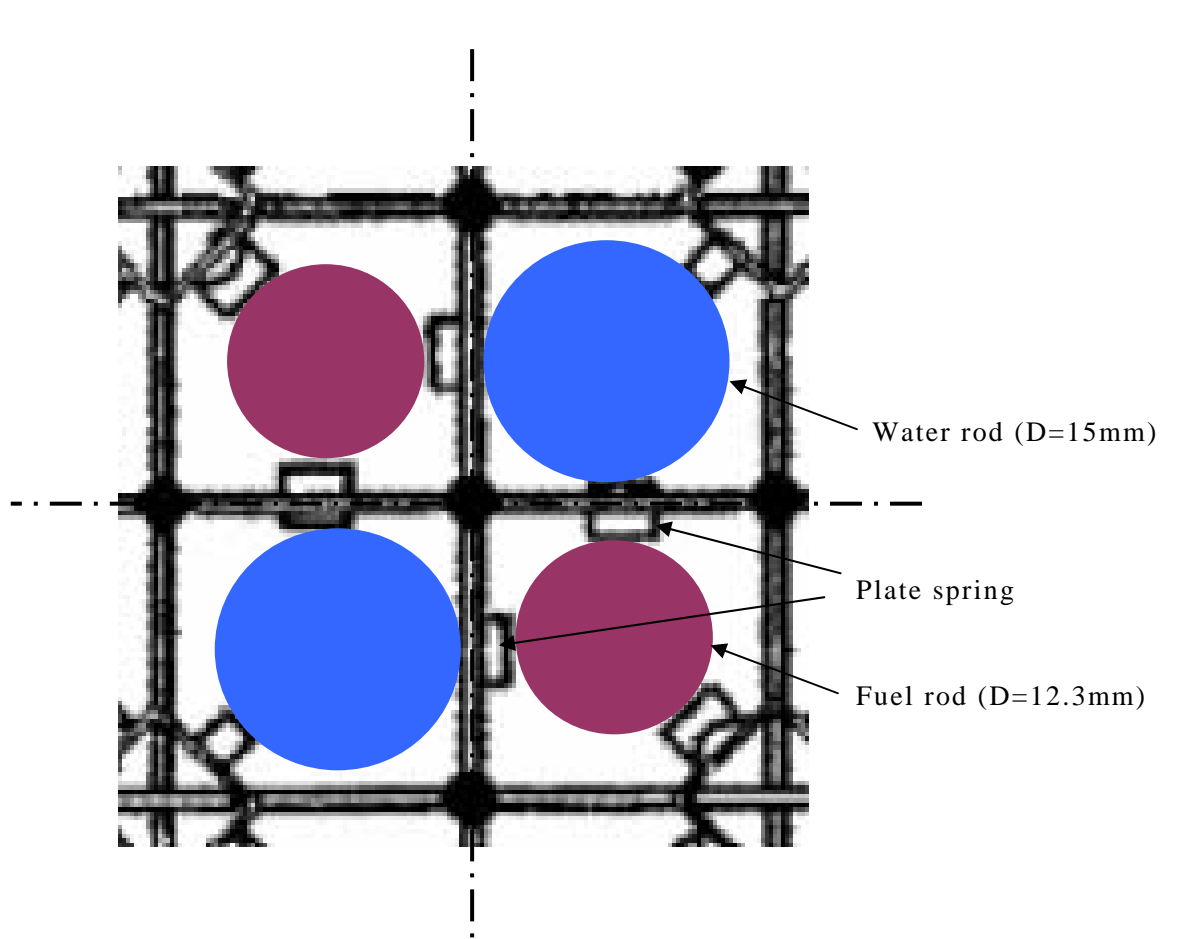

(a) Original view

There are two fuel rods and two water rod in these grids. A diameter of fuel rod is 12.3 mm and water rod 15 mm. The grid containing a fuel rod has two plate springs. The grid containing a water rod doesn't have them.

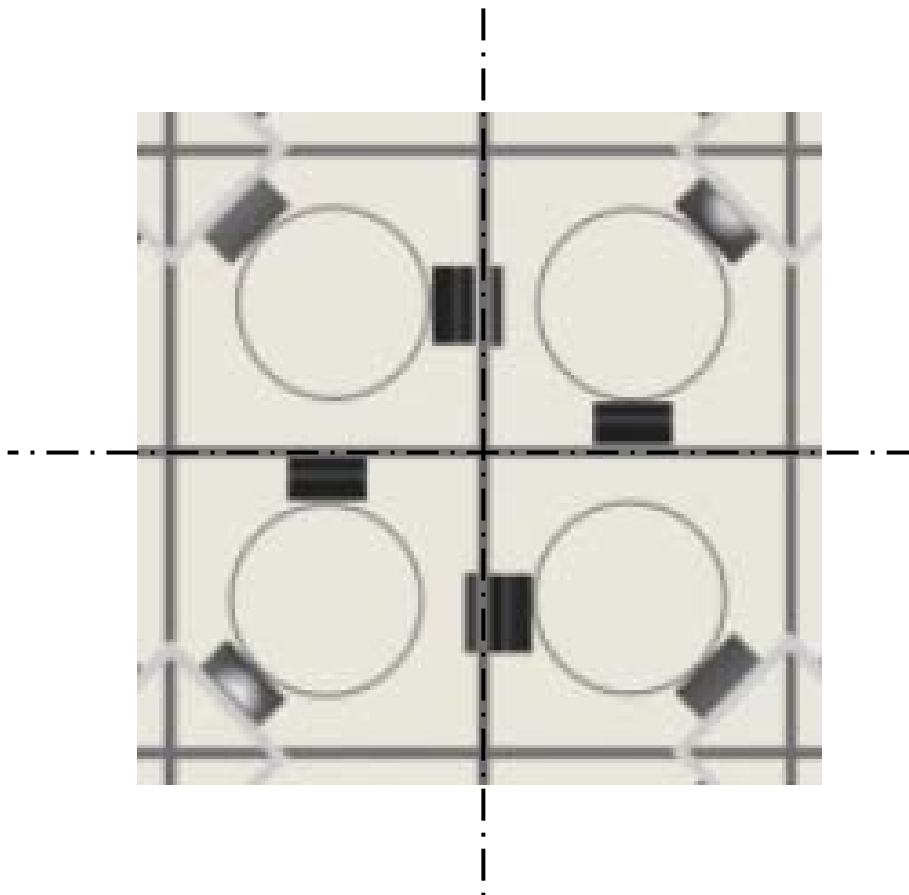

(b) Extracted view

Each four grids have a plate spring.
